

Gabriel Cañedo Riedel

Economics PhD Student | Third Year, UCSD

About me

I think economics lives in the intersection between math and story-telling. Both a science and an art. That is why on my journey towards becoming a researcher I've been sharpening both my modeling and writing skills. I think the job of an economist is to capture the human experience and lay it out in a transparent and intuitive mathematical model that has both credible mechanisms and explanatory power. My interests in economics include microeconomic theory, distributions of economic variables and spatial economics. Outside of economics my interests include evolutionary biology, history of philosophical thinking, and literature (specially short stories and its symbolisms).

🎓 EDUCATION

2021-
Ongoing

**PhD in Economics
UCSD**

📍 San Diego, CA

Currently pursuing my PhD in Economics. I have developed an interest in Microeconomic Theory, Games, distributional outcomes economic settings, and Spatial Economics. I've done Summer Research Fellowships with Alexis Toda on Pareto Distributions and with Fabian Eckert on Spatial Economics.

2019-2021
ITAM

**Masters in Economic Theory
ITAM**

📍 Mexico City, MX

Graduated with High Honors.

Theoretical and mathematical masters program, complemented with applied work in the Center for Economic Research (CIE). Graduated with the highest attainable mention.

2013-2018
ITAM

**BA in Economics
ITAM**

📍 Mexico City, MX

Graduated with High Honors.

Graduated with highest attainable mention. Took the most technical specialization, math economics, and still graduated with top 7% grades in the generation.

🏢 WORK EXPERIENCE

2021-Today

**Reader and Teacher Assistant
UCSD**

📍 San Diego, CA

I've assisted in teaching all of the Econ 100 series.

2018-2021

**Research Assistant
CIE at ITAM**

📍 Mexico City, MX

I assisted Cristián Sánchez in his research, which focuses on the study of education markets and their responses to reforms. We are coauthoring now.

2017

**Economic Dept. Coordinator
SELZ Group**

📍 Mexico City, MX

Coordinated a small team of economists that generated economic and financial reports.

2014-2020

Economic Consultant

📍 Guadalajara, MX

Riedel Inteligencia y Estudios de Mercado

Had a long trajectory with this marketing firm, started working surveying people, then designing surveys, managing surveyors and finally working as a consultant towards the end of my undergrad studies.

🎤 CONFERENCES

2019

LACEA-LAMES Conference

📍 Morelia, MX

Presented *Supply-side Responses to Targeted Vouchers*, a paper coauthored with Cristián Sánchez, as part of the 24th edition of the conference.

★ SOCIAL INITIATIVE

2011-2012

CCG

📍 Guadalajara, MX

While studying towards a law degree (unfinished), I cofounded and directed an agency that assisted poor and marginalized people on civil and mercantile legal matters. The agency continued operations a couple of years after I left.
